

CHILD KILLED NEAR ORLAND LAKE SATURDAY

Four year old Laura Annette Trayer, daughter of Mr. and Mrs. Eugene Trayer, 6020 Harper avenue, Chicago, was killed on the Southwest highway and 142nd street near the lake in Orland Park Saturday evening, May 19 about 7:45 o'clock.

New Face For The Paper This Week

With the purchase of new fonts of linotype mats, called Excelsior, we have this week, a new face for the paper. We are sure it will be recognized at once as the face is larger than that we have been using since just before World War II.

This is the size of type this newspaper has always used, except for the past 10 years when a new font was needed and we were unable to get the same size because of war conditions, and therefore had to take the smaller face.

This face of type is easier to read and will cause less eye strain.

The Deed Is Done! Pioneer Cemetery Is A Beauty Spot Again

The Pioneer Memorial cemetery on Wolf road at Mokena, which has been in the lime light for some time because of the unkempt condition, is now a tidy place and one of which to be proud.

The tall grass has been cut, and it all came about when the fathers of the Mokena Cub Scouts gathered there Monday night and put their shoulders to the task and cut the grass. Wednesday afternoon, after school, the Cub Scouts with their Den mothers, Mrs. Fred Lehmann and Mrs. Stanley Williams, met at the cemetery and raked the cut grass.

This is a commendable act and one of which every patriotic citizen in Mokena will be proud. The VFW members had planned to do the task, before Memorial day, and as they have so many community and patriotic jobs to do, they will be glad to be relieved of this one, and also to know that others beside them are taking an interest in the community and in the Pioneer cemetery wherein is buried a soldier of the revolutionary war.

Our hats off to Mokena Cub Scouts, their fathers and Den mothers! Elsie will be glad to hear this news.

Coal's use can be traced back to 370 B.C. when Greek blacksmiths used it to heat their forges.

Ton' Makes 131.950 M.P.H. in Trials

Tinley Park will again be represented at the Indianapolis speedway when the home-town boy, Tony Bettenhausen, drives in the Memorial day races. Tony qualified in the time trials held May 12. His speed was 131.950, just one twentieth of a second under 132 miles per hour.

Tony was the second driver to complete his trials for the 500 mile classic. A crowd estimated at 50,000 was in the stands to see the try-outs. The time trials gave the spectators a clear view of their favorite drivers and provide action for the old-time racing fans.

Last year alcohol was used in Tony's car but this year he will use gasoline which will probably keep the car cooler. His car broke down last year after 32 laps and he then went in as a substitute for Joie Chitwood, who suffered friction burns on his hands, and the Tinley boy came in fifth.

Last year Tony qualified at 130 miles p. h. but this year all speeds have gone up.

Helicopter Tests Attract Spectators

Much excitement was aroused Saturday afternoon on Bell road near 151st street in Homer township on the farm of Supervisor Barney Welter, when a helicopter made several landings and take-offs from a particular pasture spot.

The helicopter was used to make tests to determine the height of the tower to be constructed there this summer. Many photographers and company officials witnessed the tests.

The helicopter was the "thrill" of the day for many neighbors and especially the children, many of whom had never seen one before.

Previously Mr. Welter had also given the American Telephone and Telegraph company an option to build a television relay station a short distance north on the same tract.

Phone Subscribers Increase; Million Share in Company

The Bell Telephone System on May 15 became the first private company in U. S. history to have one million owners; including 91,000 in 850 Illinois communities.

These 91,000 American Telephone & Telegraph Company stockholders in Illinois own 2,052,000 shares, valued at \$318,000,000. Among the state's owners are 19,000 Illinois Bell employees who have 92,000 shares.

The millionth stockholder, represented by a young Saginaw, Mich., couple, Mr. and Mrs. Brady Denton, bought their AT&T stock as their first investment in securities. Denton is an automobile salesman and an overseas veteran of World War II.

D. L. Sperry, Illinois Bell manager, pointed out that it is the savings of the million AT&T stockholders, typified by the Dentons, which have enabled

the company to expand its telephone network. Since the war, the number of telephones in Tinley has increased from 624 to 1199, in Palos Park from 1114 to 1967, and R. F. McQueen, Joliet manager, reported an increase in Mokena from 230 to 413.

AT&T's family of stockholders live in 19,000 U. S. communities; and include farmers, doctors, teachers, housewives and janitors. Individuals, including joint accounts, comprise 96% of the stockholders and at least one in every 45 American families has a direct investment in AT&T; many others benefit through holdings by schools, churches, hospitals, insurance companies and charitable institutions. No one stockholder holds as much as one-half of one per cent of the total 29,000,000 shares outstanding. About 485,000 women hold 12,000,000 shares of stock, outnumbering men nearly two to one. About 225,000 stockholders are represented by joint accounts—which are usually husband and wife.

A banquet in honor of the

Dentons was held in New York last Tuesday night. Speakers were Charles E. Wilson, director of defense mobilization; Thomas I. Parkinson, president of the Equitable Life Assurance Society; and Leroy A. Wilson, president of AT&T.

In the picture, Mr. Denton has Johnny, three, in his arms as he watches Brady, Jr., six, learn about switchboard operating from Miss Doris Beiser of Michigan Bell Telephone Company. The Denton's third boy is 4 months old (born Jan. 9, 1951) and so had to stay home with grandma.

On their RECORD elect these judges

⊗ REPUBLICAN

FOR SUPREME COURT JUDGE
7th District

⊗ JULIUS H. MINER

Since his admission to the Illinois bar in 1917, Judge Miner has served as a master in chancery; a criminal court justice; has taught law subjects at Northwestern University and other schools; has written three textbooks; has participated in numerous community drives; and now, at the conclusion of his second term as judge of the circuit court of Cook County, has been unanimously endorsed by the Cook County Bar Association as a candidate for Justice of the Supreme Court. It is firmly believed his ability and experience as a judge will help to strengthen the Illinois courts.

FOR CIRCUIT JUDGES
12th Judicial Circuit

⊗ JAMES V. BARTLEY

Judge Bartley is a past president of the Board of Governors of the Illinois Circuit and Supreme Judges Association and president of the Illinois State Bar Committee to Recommend Changes in Rules in the Civil Practice Act. He is one of four generations to practice law in the Bartley family and has won great respect during his two terms as circuit judge, particularly in regard to the condition in which he found the court when he assumed office and the remarkable manner in which he cleared both the criminal and civil calendars within a year's time. His record speaks for itself and he should definitely be re-elected.

⊗ C. D. HENRY

Judge C. D. Henry, of Kankakee, has all the qualities of training, experience and temperament so important to the position of judge on the circuit bench. In an office that has personal contact with the life of the ordinary citizen in countless ways, he has proven himself unusually qualified and capable. He is an able lawyer and a man who does many things as a public-spirited citizen in a quiet and modest way. He has the affinity for judiciary matters that the position of circuit judge demands and should certainly be re-elected to that office.

⊗ ROSCOE C. SOUTH

The twelve years Judge South has given to the people of the Twelfth Judicial District have thoroughly justified the faith placed in him when he was first elected to the circuit bench. He has worked tirelessly for the America he loves and has kept constantly before him his conviction that, "To keep our liberty and our freedom, the Constitution of the United States must be preserved." He has worked closely with Judge Bartley and Judge Henry to make the 12th Judicial Circuit one of which to be proud. Keep Judge South on the bench by your vote on June 4.

DOOM for DANDELIONS

Just scatter Scott's weed control over your lawn by hand or with a spreader. The pesky broad-leaved weeds go, grass is not harmed.

WEED & FEED — double action in one operation. Kills weeds and at the same time feeds the grass to thicker growth and richer color. Box treats 2500 sq ft — \$2.95

4-XO Easy control for broad-leaved weeds. Same potent element as Weed & Feed less lawn food. Dry applied as it comes from package — no mixing or fussing with water. Box, 2500 sq ft — \$1.75 Bag, 11,000 sq ft — \$4.85

Sow **SPECIAL PURPOSE BLEND** Fast growing Scott's seed to fill in bare spots left by vanquished weeds. Excellent for late spring plantings.
1 lb. — \$1.25 5 lbs. — \$6.15

New Drug Discovery Is Deah to Germs

Several magazines have been running articles about Hexachlorophene and how it was discovered through careful research — tested clinically for more than ten years — and was first used by doctors and surgeons in a soap to reduce skin bacteria on their hands and arms before surgery.

Studying the mass of clinical reports on this new compound, the possibility of the great benefits of its use in cosmetics stood out sharply. But, would Hexachlorophene retain its germ killing power in cosmetics? Only a long series of tests by a competent laboratory could answer this question. The tests were made.

Hand cream without this amazing compound soothed and softened the skin, yet the countless thousands of bacteria on the skin lived and multiplied. Moreover, this same hand cream, with Hexachlorophene, not only had the same beneficial effect on the hands and arms, but it killed germs—germs that would have been ready to enter and infect the slightest break in the skin.

More, these tests also showed that Hexachlorophene cosmetics not only killed bacteria present on the skin, but inhibited the growth of new bacteria through an invisible film that it created.

Hundreds of closely observed tests have proved that it is so safe to use that it is even recommended for babies' tender skin. Odorless itself, Hexachlorophene actually stops body odors at their source. Most body odors are caused by bacteria breaking down waste material eliminated through the pores of the skin. By destroying these bacteria, odors are prevented.

Since Hexachlorophene also inhibits the growth of new bacteria, you can expect longer lasting protection from deodorants containing it.

Now...a million owners of Bell Telephone

Enough to fill
Chicago's Soldier
Field 10 times!

Now there are one million owners of the Bell System—an outstanding example of the American Way.

The Bell System is the first organization to pass this million milestone. But millions more own many other companies. The American capitalist is found in every walk of life.

Bell Telephone owners live on farms, in villages and cities—in 19,000 communities in every state of the Union.

There are about 91,000 in Illinois.

One out of every 45 American families has a direct investment in Bell Telephone.

About half of Illinois Bell's 40,000 employees are stockholders.

These million owners who put their savings into American Telephone and Telegraph stock enable Illinois Bell to put up buildings, install needed switchboards, run new cable, buy more telephones. The flow of investor money into this equipment enables labor and management to give you fast, dependable telephone service. Without investor money, we stop growing, and your service eventually suffers.

Last year Bell Telephone stockholders in Illinois received some 18 million dollars in dividends. Bell payrolls and purchases of supplies totaled about 300 million dollars, making the telephone business a part of the business life and prosperity of almost 7 million people in Illinois Bell territory. Its welfare affects the welfare of all.

NOMINEES FOR JUDGE VISITED HERE MONDAY

Monday afternoon the Republican caravan, made up of the candidates for judges for the 12th judicial district which includes Will county, made a tour of eastern Will county. They stopped at Mokena, Frankfort and New Lenox.

In the caravan were Judge James V. Bartley, Joliet; Judge C. D. Henry, Kankakee; Judge Roscoe C. South, candidates for re-election as judges of the circuit court. Judge Julius H. Miner, Cook county, is a candidate for Justice of the Illinois Supreme court.

This election will be held Monday, June 4 and is to be remembered that it is on a Monday and not the customary Tuesday on which elections are usually held.

Polling place in Mokena will be the Cooper & Hostert garage; in Frankfort, the village hall and in New Lenox, precinct one, the fire house, and precinct two, basement of the Episcopal church.

These judges have made a splendid record of fair and faithful decisions capable of men of good training, experience and temperament such as they have shown. It is important that the people elect dependable men and of good calibre.

"Just Been Thinkin' "

GENERAL MAC ARTHUR

In all his valiant victories As in his first retreat He knelt in thanks for each success.

In hope at each defeat. He spoke no sickly sentiment; For when he paused to pray He had the quite confidence That Light would chart his way.

His was the courage of the West: His words "I shall return" And his fulfillment of that pledge Will live though eons burn.

He was the make of man who spread Beneficence and good, And saw it blend the bitter isles Into a brotherhood.

He never asked the honors due With winning of a war, But gave them to the men and God.

Who cleared the bloody shore. The nation freely thrust its fate And sons beneath his care Because it knew this man was one.

With genius, strength, and prayer. And just as long as men shall talk Of legends linked with war The deeds of our "old soldier" shall Be told forevermore.

—Frank H. Keith

'50 Years Ago' Was Theme of Woman's Club Program

The last meeting of this season of the Frankfort Woman's club was held Thursday evening May 17 in the home of Mrs. Stanley Johnson.

Miss Mary Carmack of the Will County Health department explained the need of chest x-rays and told of the mobile unit coming to Frankfort June 22 and 23.

The newly elected officers are Mrs. George Heisner, vice president and Mrs. Walter Harnack, secretary. Mrs. Frank Heisner is president.

The playing of gramophone records more than 50 years old set the theme for the program including the reading of articles of magazines published in the late 1890's.

Mrs. Burton Breidert read, "Spring Fashions" and "Practical Hints for Housecleaning" from the Designer, June, 1897.

Mrs. Walter Harnack read, "Sanitation in the Home" from the May issue of the Delinquent of 1895. Mrs. Leroy Mager's item on "Headaches" was taken from Ladies Standard magazine June, 1897.

Mrs. Howard Osmus read a group of beauty hints from the Designer, and Mrs. Lawrence Woodman read advertisements appearing in those editions. The history of Frankfort was read by Mrs. Clark Bennett. Mrs. Arthur Lambrecht served as program chairman. Roll call was answered with, "Vacation Plans"

A buffet lunch was served by Mrs. Johnson, Mrs. Lambrecht, Mrs. Bertha Nieland and Mrs. Ted Bogdan. A miniature garden arbor centered the refresh-

ment table. Mrs. Louis Ebert, Mrs. Walter Hedges, Mrs. Ralph Dralle, Mrs. Leo Peterson and Mrs. Clarence Klepper were appointed to plan a picnic for June 21.
